Anna Fred, the little daughter of John Harbison and wife of Wedonia, was seized with a fit of coughing one day last week and coughed up a peanut that had been lodged in her wind-pipe for three or four months. It was feared she was suffering from asthma, but since spitting up the peanut she has fully recovered.

SEEING THE SIGHTS

Ruben Struck a Plate of Prunes and They Threw Him

He evidently was of the rural parts and had seen little of city life.

He was lank, lean and gawky and altogether unophisticated; he was guileless, and harmless and green as a gourd.

He came here to work on one of the several industries now going up in the city.

Tuesday night he was being inducted by mutual friends into the flashlights, frivolities and mysteries of Market street—and they are to be found in this thoroughfare as well as other parts of the city.

He was doing the burg by electric light and was out for a good time.

He had a voracious appetite as well as a thirst for mixed liquors, and during his perambulations he tried to stow away in his copper boiler all that was eatable and drinkable in the street.

At this place it was a beer and an attack on the lunch counter. At the next a whisky straight topped off with a sandwich.

So it went; pie, cake, apples, oysters all went down his long gullet with ease and without friction.

It was a late hour when he began to feel the weight of his load; he could see two lights when there was only one; his legs would tangle with each other and he concluded to steer for a friendly port.

On the way he espied a fruit stand, and seeing prunes in the tray and, never having eaten them, he concluded he would top off with a nickel's worth of this delectable fruit.

He ate them seeds and all.

He was taken to his lodging place, put to bed and a Doctor called in.

After a diagnosis of the case, a stomach pump was brought into use and by the most strenuous efforts of the physician a double action was had and the man relieved and his life saved.

He is able to appear on the streets, but is yet weak from the effects of his first night in town.

If he stays here any length of time he will be thoroughly educated in the ways of the world, for Market street is an apt school with a full corps of teachers.

Deafness Cannot be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a running ear or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

THE country has more at stake than any life insurance company, and yet no life insurance company would accept HENRY G. DAVIS as a risk.

THERE'S some bad guessing somewhere. UREY WOODSON of Kentucky, the Democratic Woggle Bug, says PARKER will carry West Virginia, and Senator SCOTT of that state says ROOSEVELT will carry it by 20,000 majority.

THE workingman who is in doubt as to how he shall cast his ballot might find some convincing argument by looking over the newspaper files and reading the soup-house stories that were prominent features during the last Cleveland Administration.

THE campaign in Kentucky is warming up at last. As the result of a political argument at Madisonville, JEFF MORGAN struck FERN LITZ with a board, killing him instantly.

JUDGE PARKER has thanked Mr. BRYAN for his hearty work in the campaign; and you can put it down in the back yard of your guessing school that if Mr. PARKER is defeated, Colonel WILLIAM JENNINGS BRYAN will be the biggest Democrat between the East pole and the West pole, and between the Gulf of Michigan and Lake Mexico. Don't you forget to remember this.

Judge Parker's numerous manifestations of ignorance of public affairs, due to his long residence at a village called Esopus, recalls the remark of a critic concerning the author of a new book. RIDDLED BY KNOX.

Illogical Character of Democratic Trust Position Shown.

Both Cleveland and Parker Change Front on Question—Democratic Nominee Created by Trust Agents.

Senator Knox, formerly attorney general in President Roosevelt's cabinet, has issued a statement riddling the speech made by Judge Parker at Esopus last week. When Senator Knox's attention was called to Judge Parker's utterance he expressed amazement at the looseness of argument and disregard of fact exhibited. That a man honored with the presidential candidacy by a great party should have so far forgotten himself as to charge the president with conniving with the trusts to delude the people of the country Mr. Knox declared to be inexplicable on any ground other than the recklessness of despair. Mr. Knox proceeded to demonstrate the illogical and untenable character of the entire Democratic attitude toward the trusts. He said:

"In the early part of this campaign Judge Parker stated, 'The common law as developed affords a complete legal remedy against monopolies,' and ex-President Cleveland, in commenting upon the decision in the Northern Securities case, said: 'There is a distinct difference drawn between railroads and purely producing corporations.' It could not be said that the sugar trust or the beef trust or the Standard Oil company was directly engaged in interstate transportation. They were engaged in the manufacture and sale of products."

"Within the last few days Mr. Cleveland in a public speech criticized the Republican administration for not 'running nigger' in the business interests of the country, which so eminent a philologist as he knows means that he criticizes the president for not dashing wildly at everything in sight and destroying the guilty and innocent alike, while Judge Parker only yesterday bewails the fact that corporations are permitted to violate the law and that they are contributing to the Republican cause."

"What can be the reason for this change of front? Mr. Cleveland on March 17, notwithstanding the decree of the circuit court pronouncing the beef trust unlawful, says it was not within the prohibition of the law, thus throwing the weight of his opinion in favor of the beef trust and against the United States at a time when the case was pending in the United States Supreme Court."

MAYSVILLE FOUNDRY AND MACHINE CO.

est court, while on Oct. 21 he inferentially demanded that an incorporated business should be wantonly assailed. "Is there any connection between Judge Parker's abandonment of his futile common law panacea, which meant immunity to the trusts, and the fact, as he alleges, that the trusts contribute to the success of the Republican party? Do the principles of law which Mr. Cleveland thought last March protected manufacturing monopolies change in October, and, if so, does the change affect the Belmont trusts, or only those which are suspected of seeing in the perpetuation of Republican administration the continued general prosperity of the country?"

"Judge Parker in his speech on Monday also said:

"Many years have passed since my active participation in politics. In the meantime a startling change has taken place in the method of conducting campaigns; a change not for the better, but for the worse; a change that has introduced debating and corrupt methods which threaten the integrity of our government."

"It is astounding that Judge Parker should be willing to challenge the comparison which this statement inevitably calls out. When Judge Parker last actively participated in politics off the bench he was chairman of the New York state Democratic committee which elected David B. Hill as governor. He was a cog in the Hill machine. There never have been in our political history methods more debasing and corrupt than those of the Hill machine in New York, and they culminated in the steal of the state by the Maynard frauds and the overthrow of the Hill machine in consequence. This was the machine which Mr. Parker ran until, as a reward for running it, he was made a judge by Hill. And these are the methods he deprecates."

"Again, Judge Parker speaks of the campaign contributions by great corporations. He states that 'some of the enterprises which have unduly thrived through favoritism have become so rich and strong that they can and do contribute vast sums when it is made clear that it will advantage them.'"

"Judge Parker is describing precisely and exactly the sources which give Tammany Hall its strength, and the cutting off of which in the present election would remove every chance of his carrying New York state. There is not an honest man in political life who does not know that this is the case and that Judge Parker is now seeking to be the beneficiary of the very methods which he affects to denounce."

"Again, Judge Parker says:

"Political contributions by corporations and trusts mean corruption. They cannot be honest. A corporation will subscribe to a political party only because the corporation expects that party, through the control of public officers, executive or legislative, to do something for the benefit of the corporation or to refrain from doing something to its injury. No other motive can be imagined. In the nature of things, no other motive can exist."

"It is astounding that Judge Parker

should have the temerity to say this when his own intimate associates and supporters, the men who conducted his campaign for the nomination and who are now conducting the campaign for his election, represent these very corporations which he affects to denounce or else owe their political strength solely to the contributions they have received from them in the past and expect to receive from them in the future."

"Mr. Cord Meyer, Mr. Patrick McCarran, Mr. August Belmont, Mr. William F. Sheehan, Mr. Thomas F. Ryan, Mr. John B. McDonald, Mr. David B. Hill and Mr. Thomas Taggart are all and all owe their whole power in politics to the intimate connection they have established between the management of corporations and the management of public business. Mr. Parker was created by them, would never have been thought of except for them and has not now one chance of success save what they give him."

"When Mr. Hill last April, in the New York state convention which put Judge Parker forward for the presidential nomination, declared that the trusts should be regulated by the state, and not by the nation, and when Judge Parker himself declared that the common law was sufficient for their regulation, knowing full well that this meant the abandonment of every effort to regulate them by the federal government, Mr. Hill and Judge Parker were bidding for the support of the great corporations, and bidding for this support with reckless disregard of the interests of the public. Now, as a last despairing effort, he inveighs against them and seeks to obtain votes by thus attacking them in a manner utterly unworthy of the candidate of a great party for the high office of president."

"Judge Parker's statement in yesterday's speech that the president and the trusts combined in an effort 'to satisfy the country that the trusts were opposed to the present administration' is simply preposterous and smacks of the rashness of desperation. The Democratic platform, speaking of the trusts, says:

"We specially denounce rebates and discriminations by transportation companies as the most potent agency for promoting and strengthening these unlawful conspiracies against trade."

"As a Republican congress at the request of President Roosevelt has just passed as drastic an act as is possible to prepare, striking at all rebates and discriminations and conferring jurisdiction upon the United States courts to restrain and prevent them at the suit of the attorney general, how does this record stand against Judge Parker's assertion that 'these interests (referring to the trusts) have decided to attempt to continue the present administration in power' for the purpose of securing immunity from prosecution under existing laws or the enactment of additional laws aimed at their existence?"

Two Tries to Rob Ex-Maysville Man in Cincinnati

Tuesday night burglars made two attempts to burglarize the residence of Dr. Charles Tabb Pearce in the Lane Seminary grounds, Cincinnati.

Dr. Pearce was aroused by noises at a window early in the night, and, revolver in hand, he started to investigate.

An hour later the second attempt was made and a telephone message to the Seventh District Police Station brought officers and a patrol.

The burglars escaped.

A few days ago Dr. Pearce received by express a box of silverware upon which was marked a \$1,000 valuation, and it is believed that the burglars learned of the receipt of the silver and this was the object of the attempted burglary.

VOTERS HAVE SOME RELIEF

Goebel Law Tactics Knocked Out at Lexington

Judge Parker, Democrat, Renders a Most Important Decision

LEXINGTON, Ky., November 1.—The most important decision ever delivered in Kentucky, affecting tactics employed under the Goebel Election Law, was handed down by Judge Watts Parker here today.

The case was that of R. J. McMichael, Republican, plaintiff, v. Frank Sutton et al., Democratic Registration Officers, suing for a mandatory injunction to compel them to place his name on registration.

McMichael alleged that the officers, by tactics of delay, prevented him and others from registering, and sought this avenue of relief.

The Court holds that he has relief, but whether by mandamus or injunction, is yet to be decided.

It heretofore had been held that there was no relief, except through the Legislature.

Either way that the case goes, the result will be that those shut out in future can have their names entered by a special convention of registration officers for that purpose.

This is a victory for the Republicans, as many Negroes are alleged to have been barred by the dilatory tactics in Central Kentucky.

The case goes to the Court of Appeals.

[The fact that Judge Parker is a Democrat, and that he was a supporter of Goebel, must be accepted as evidence that there is a return to reason, at least in some of the Kentucky Courts. —EDITOR LEDGER.]

The turnip crop is short on account of the drouth.

Captain W. G. Dearing of Fleming is campaigning this week in the Eleventh District.

Rockefeller as a stock gambler and Rockefeller as a Sunday-school teacher reminds one sharply of the story of Dr. Jekyll and Mr. Hyde.

The Court of Appeals yesterday ruled that the state cannot recover on the bond of ex-Auditor Sweeney for money paid by him to the state militia ordered to Frankfort by Governor Taylor during the Goebel-Taylor contest. His action, it is held, was irregular, but in nowise prejudiced the state.

Bishop Thinks America Has Mission in Philippines.

[From the Washington Post.]

"As to the Philippines, speaking for myself alone, I believe that we, as a people, are in the Philippine Islands in harmony with the will of God, which is working to the redemption of the uttermost parts of the earth. Things are best as they are, first, for what we shall do for the Philippines; second, for what they shall do for us; third, because we have reached that day in the history of the world when the orient is waking up, and I believe God wants the American nation to have a part in that great development."

The speaker was the Rev. Bishop F. W. Warne of Lucknow, India, one of the three Indian bishops of the Methodist Episcopal church, who preached recently at Foundry church in Washington to a large congregation.

No Poison in Chamberlain's Cough Remedy.
From Napier (New Zealand) Herald—Two years ago the Pharmacy Board of New South Wales, Australia, had an analysis made of all the cough medicines that were sold in that market. Out of the entire list they found only one that they declared was entirely free from all poisons. This exception was Chamberlain's Cough Remedy, made by the Chamberlain Medicine Company, Des Moines, Iowa, U. S. A. The absence of all narcotics makes this remedy the safest and best that can be had, and it is with a feeling of security that any mother can give it to her little ones. Chamberlain's Cough Remedy is especially recommended by its makers for coughs, colds, croup and whooping cough. This remedy is for sale by all Druggists.

HARD TO EXPLAIN
If This Had Occurred Anywhere Else Than Maysville Our Readers Might Doubt It.

It's hard to explain how the public can continue to doubt in the face of such evidence if this were published anywhere else than in Maysville—if the statement given below went the rounds of the press, readers in Boston or New Orleans might doubt it. But it's very different when the testimony given comes from a friend, perhaps a neighbor. It is public expression of a local citizen, and can be easily investigated.

Mr. Larmon Dawson, residing at No. 934 East Second street, says:
"The quick relief from pain in my back, which followed the use of Doan's Kidney Pills, proved them to possess remarkable powers. I procured them at J. Jas. Wood & Son's Drugstore, corner of West Second and Market streets. From the satisfactory results obtained I can advise all in need of a kidney medicine to give Doan's Kidney Pills a trial."
For sale by all dealers. Price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.
Remember the name—Doan's—and take no substitute.
